[9am UTC](#)

MARI GARCIA · *The Mars trigger*

[9:30am UTC](#)

The cycles of Mars are often not taken into account in modern mundane prediction but its nature and speed often form the trigger to coalescing cycles of the outer planets. A look at both historical and contemporary examples with a template to consider for future forecasts.

*Mari Garcia is a consulting astrologer, writer, speaker and educator, and co-principal of **ASTRO MUNDI**, one of Australia's successful astrological schools. Mari has lectured at UAC, AA, FAA, and IAA. She has a strong interest in mundane and political astrology writing regularly for the FAA journal. For information and articles <https://www.mariastrologer.com/> or www.astromundi.com.*

EVE DEMBOWSKI · *Pandemics & great conjunctions of Saturn & Jupiter* [11am UTC](#)

As the COVID-19 crisis reached its height, Saturn and Jupiter joined at 0° Aquarius, shifting into the Air triplicity after 240 years in Earth. How significant was this to the pattern of the great conjunction and in particular their shift into new triplicity? Is there a connection between these great conjunctions and pandemics/plagues? What can we learn from the past?

Eve Dembowski has been a STA tutor since 2013. Being well-versed in both traditional and modern astrology, she has been teaching and writing on astrology with a focus on its philosophical aspects. She is the author of the Foundations of Astrology course, runs weekly chart nights, and sees private clients.

ÖNER DÖŞER · *The unique masterpiece of an Ottoman Astrologer* [12:30pm UTC](#)

Sadullah Efendi, 19th-century astrologer, member of parliament and poet, compiled 10 books on astrology and sample charts in his 570-page masterpiece. Written in Arabic, Persian and Ottoman Turkish, Öner Döşer is managing the translation into modern Turkish, and will demonstrate Ottoman astrological chart interpretation as exemplified by Efendi.

Öner Döşer is the founder of AstroArt School of Astrology (2005), Astrology Television (2010) and School of Astrology Publications (2012). He has trained more than five thousand students, many going on to write and teach, and has written 40 books (14 translated into English, Chinese and Serbian).

CHRISTEEN SKINNER · *Cycles in property and commodity prices* [2pm UTC](#)

The sunspot cycle is expected to reach maximum in the next 18 months marking a turning point in political, social, and economic affairs. The interaction of solar and planetary cycles correlates with rhythms in commodity prices. This talk will show examples using gold, silver, wheat and soya wheat prices. Attention will also be given to the lunar nodal cycle.

Christeen Skinner is a Director of Cityscapes London Ltd a company specialising in future casting. She is author of several books on financial astrology and a regular speaker at conferences. She is a Fellow of the Royal Society of Arts and holder of the Charles Harvey and Formalhaut Awards.

DEBORAH HOULDING · *Madoff & other money-market monsters* [3:30pm UTC](#)

Money markets rest on perceived values, never more so than recently, with the rise of artificial intelligence and artificial cryptocurrencies. How were people like Madoff, Elizabeth Holmes, and Sam Bankman-Fried able to ‘scamfluence’ so easily, gaining and losing billions, pursuing the tactics of inspirational belief, always underlined by FOMO (Fear Of Missing Out)?

Deborah Houlding, author of The Houses: Temples of the Sky, is the founder of STA and creator of Skyscript. An astrologer since the late 1980s, she is the recipient of the AA’s Charles Harvey Award, the Jayavidya Cultural Assoc. Int’l Award, and the UAC Regulus Award for theory and understanding.

DR LEE LEHMAN · *The astrology of environmental disasters* [5pm UTC](#)

There are many ways that the environment can be compromised! In this session we examine the range through chart examples – from human-caused to earth-based; from localized to continental, from event to periodic, to long-term. What environmental disasters share is consequence: they can have effects outside the time frame of normal human comprehension.

Lee Lehman, Ph.D., has written eleven books on horary, electional, mundane, medical, and solar returns. She is the Principal of the Medical Program at the School of Traditional Astrology. She also teaches at Kepler College, and has received the Marc Edmund Jones Award and the Regulus Award.

WENDY STACEY · *A pivotal point in history* [6:30pm UTC](#)

We stand on the brink of major human evolution and the progression of human consciousness. Recent and upcoming astrology will pole vault us into uncharted territory, altering humans’ perspectives, perceptions, expectations, and world views. Using historical charts, we will explore current cycles, and pivotal shifts which may occur in the near future.

Wendy Stacey is the author of ‘Consulting with Astrology’ and ‘Uranus Square Pluto’, chair of the Astrological Association and principal of the Mayo School of Astrology. She is a tutor for the MA program for Cultural Astronomy and Astrology and received the UK Charles Harvey award in 2014.

As astrologers with a history of religious observance, Lindsey Turner (Christianity) and Samuel F. Reynolds (Islam and Christianity) will discuss broad and narrow astrological trends in world religions, including ancient thoughts on the impact of Jupiter-Saturn conjunctions regarding messiahs and prophets, and how outer planets are indicating significant changes.

Samuel F. Reynolds consults and teaches astrology full-time. He serves as president of the board of directors for the International Academy of Astrology, and has written horoscopes for several print and online publications like Ebony, New York Magazine, and astrology.com. MICHAEL J. MORRIS · *Transits & transgender liberation movements* [9:30pm UTC](#)

The astrology of significant moments in transgender liberation movements creates a context within which to consider the current waves of anti-transgender legislation, primarily in the U.S. How might we hold the current political antagonism against transgender people within these larger cycles?

Michael J. Morris, Ph.D., is an astrologer, artist, writer, and educator committed to healing and liberation. Their work is informed by years of study, teaching, and practice in feminism, queer studies, gender and sexuality studies, dance, and ritual. <https://www.michaeljmorris.co/>

WADE CAVES · *The Sino-Indian War & water concerns in Asia-Pacific* [11pm UTC](#)

Despite a history of friendly relations, China brought an unexpected war to India's doorstep in the heights of the Himalayas. Engaged on two fronts, one to the east and one to the west, the two nations asserted their claims to key watershed regions bordering southern Tibet. The astrology of then and now has much to say about water security tensions in the region.

Wade maintains his consulting practice from Brooklyn, NY. <http://wadecaves.com> // hello@wadecaves.com

France has been rocked by terrorism and protest in recent years, with recent riots in response to police brutality, and a sense of rising inequality.
